

EnemyManager

```
+ EnemyManager(std::  
vector< Hall * > &halls)  
+ ~EnemyManager()  
+ void createEnemy()  
+ void removeEnemy(const  
  int index)  
+ void updateEnemiesState  
  (sf::Vector2f const &playerCoordinates)  
+ void update(const float  
  &deltatime)  
+ void render(sf::RenderTarget  
  &target)
```
